Do it your health.

What is the claim about?

We believe that the best way to take control of your health, wellbeing and performance is to do it yourself. You know your goals, your abilities, your limits, your ailments and your preferences best of all. You decide how to achieve your personal balance between activation and regeneration for a life full of energy and sustainable performance. Because no one knows you better than you know yourself.

We help you to help yourself.

We have set ourselves the goal of encouraging you and all people to do something for their own health. No matter if you want to get rid of your aches and pains, if you want to beat your best time, if you just want to be a bit fitter, if you want to belong to the world elite or if a good quality of sleep is important to you. Whatever it is, we offer you the perfect tools, tips and services for your health and performance.

Simple tools of the Healthstyle Company

We consider ourselves a Healthstyle Company. This means that we offer products and services that are easy and intuitive to use for every life situation and lifestyle, and that experts in sport and health - scientists, doctors, therapists and professional athletes - are convinced of.

And in many cases in areas where products of comparable quality, design and perfection simply did not exist before. You can use BLACKROLL® products to relax your muscles even in between and after sports. For less pain. For a permanently better posture. For effective warm-up and training. Even for better sleep.

About
BLACKROLL®.

STANDARD

The mother of all foam rollers.

The STANDARD foam roller takes just a little effort with simple exercises to provide palpable increases in elasticity and performance of the muscles. Regular exercise with the BLACKROLL® foam roller will allow its relaxing effects to last longer. Functional exercises can also be varied and intensified with the STANDARD foam roller.

For more mobility, pain relief & better regeneration. At BLACKROLL® everyone can buy their very own personal foam roller to use either for fascia massage, regeneration or mobilization.

BALL 08 + 12

Intensive and point-specific massage.

In contrast to the foam rollers, the fascia balls are suitable for a particularly targeted treatment of hardened muscle strands and painful trigger points.

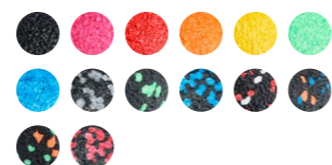

The range comprises single balls (BALL 08 & BALL 12). What's the difference here?

The BALL 12 is a fascia ball in large with 12 cm diameter. It is the ideal fascia ball for larger muscle groups, such as thighs or calves. The BLACKROLL® BALL is also available as a small fascia ball measuring 8 cm in diameter. This is particularly ideal for relieving individual muscle tightness, encouraging blood circulation in the tissue and reducing pain. Since the surface area of the small fascia ball (BALL 08) is smaller, it is more intensive to use.

- 1 high quality 3D sticker, Ø 15 mm, CMYK
- 2 free color choice

Product size
8cm or 12cm

MINI

The little one.

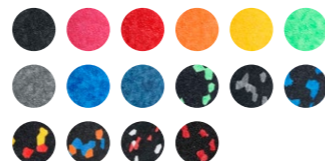

The lightweight recovery tool in mini format is ideal for relieving tension. Due to the length of 15cm, the small fascia roller is particularly suitable for self-massage on arms and feet - on the road or in the office.

Especially in everyday life, the BLACKROLL® MINI can be used particularly well: especially office workers benefit, for example, from an occasional short massage of the forearms or the soles of the feet, which can prevent or relieve tension.

LOOP BAND

Flexible training without unpleasant pulling on the skin, thanks to skin-friendly textiles.

LOOP BANDS are especially good for training smaller muscle chains, leading to better body stability and reduced risk of injury. The natural rubber, sheathed in skin-friendly textiles, offers all the advantages of flexible piece of training equipment without the unpleasant pulling on the skin, so it increases the fun of exercise.

The LOOP BAND is available in 6 different colours. Each colour stands for an intensity:

- yellow = extra light
- orange = light
- red = moderate
- green = medium
- blue = strong
- black = extra strong

- 1 logo print b/w or coloured on the product
- 2 six colours available

Product size
32cm x 6cm

STRETCH BAND

The tool for muscle length training & active mobility.

You want to improve your mobility and restore the natural tension in your body? The STRETCH BAND made of skin-friendly material is ideal for this. The sewn-in loops and the material composition are optimised for so-called muscle length training. This training improves your active mobility and prevents typical complaints such as back and neck pain. The loops in the Fitness Stretch Band allow you to adapt the training to your needs and progress.

- 1 logo print on weblabel b/w or coloured on the product
- 2 product colour turquoise

Product size
100cm x 3cm

RECOVERY PILLOW

For good sleep – anywhere.

Many people cannot fall asleep or sleep throughout the night, which is why they feel tired, dull, and listless in the morning.

Beside other factors, the sleeping environment can also disturb your sleep. This is not just your mattress and pillow, but also (blue) light sources (smart phones, laptops) that promote the release of cortisol.

What many people do not know: chronic sleep disorders not only affect our cognitive abilities – they can also affect physical fitness. You need sleep to be awake and fit during the day.

This is why BLACKROLL® has developed a pillow to ensure optimal sleeping conditions. The RECOVERY PILLOW is not only small, handy, and incredibly light - it can also be rolled up to save space, so you always have the pillow with you when you travel. For your sleep routine - everywhere.

- 1 Logo print on weblabel b/w or coloured on the product
- 2 change colour of pillow edge
- 3 change colour of travel bag edge
- 4 Print logo on travel bag b/w or coloured
- 5 product colour grey
